

CHAIRS ARMCHAIRS TABLES BENCHES BEER SETS

KOVALTOS

PRODUCTION OF GARDEN FURNITURE

The company KOVALTOS s.r.o. offers a wide range of folding garden furniture: chairs, armchairs, benches, tables, and small tables of various shapes and heights, as well as sets of tables and benches under the name „beer sets,“ meeting brewery quality standards.

The wooden parts of all types of garden furniture are made from ash wood. All wooden parts are impregnated and sprayed twice with thick-layer stain in shades of pine, walnut, or chestnut (we also offer shades according to the RAL color chart).

The surface finish of the metal frame is done in powder coating (shades according to the RAL color chart), hot-dip galvanized, or in electro-galvanized with powder coating.

The furniture is foldable, and the wood is screwed to the metal frame with galvanized screws.

SERIES WITH A NEW SURFACE TREATMENT

The wooden slats and table tops are treated with a color in an oak shade (oak look). This is a natural shade that highlights the grain and pattern of the wood. The wooden parts are treated with a base stain with fungicide and then sprayed twice with a clear varnish.

The metal frames with a powder-coated finish in RAL shades can now also be offered in a matte finish.

The spruce boards of the beer sets are coated twice with a thick-layer stain.

The metal bases are made from steel L 30 x 30 x 3 mm. They are treated with dip paint (we also offer powder coating and galvanizing).

The beer sets can be marked with your company's logo.
